

Become an accredited i3 coach with our flexible hybrid training delivery options

.... Whatever your learning style we can now offer online or traditional face 2 face training!

What is i3?

i3 is a full Organisational Development tool that will support you with the whole talent management, succession planning and employee development life cycle.

Raising both self and social awareness, becoming accredited in the i3 assessment tools will help with the intervention and implementation of relevant learning and development programmes, whilst providing HR/OD teams, coaches, business leaders, and hiring managers, a range of people management and career coaching solutions.

We use the term REAL as with each of our tools you get straight to what is REAL about an individual. There are no masks and guess work, you get to be authentic with whoever you work with and see what naturally sits below the surface, developing REAL talent, REAL confidence, REAL leadership, REAL teams, and REAL success as a REAL coach.

What is different about i3?

There are 4 clear differences that stands i3 apart from many other assessment tools:

- i3 profiles are unique – no two results generated from the assessment are the same. We believe in identifying what makes a person unique, building their self-awareness, belief, and direction. Visual, transparent, and engaging focussing on the individual; there is no pigeon holing with i3.
- One assessment, multiple outputs! Rather than have to get people to do different assessments relative to different needs, with an i3 assessment their reports can effectively be embedded throughout any aspect of a talent management strategy.
- Cost effective and flexible purchasing options with no license fee, no re accreditation cost and no shelf life.
- Direct management and access facilitating your own online account, operating as an in-house system with personal account management reactionary to your specific needs.

What are your options?

Our experience through the Covid-19 lockdown period has enabled us to offer more flexibility when it comes to training options. We now offer both face to face (our traditional method) as well as online courses. We have also broken the traditional 4-day course into modules to suit your needs. The i3 Foundation module is the starting point which gives you the grounding to go on and add whatever skills you need thereafter. We know personal development and self-awareness will be integral to getting back on track to adapt to the “new normal” and we want to help you to be a trained professional ready to support people. If you are interested, please read on to find out how you can become an i3 coach.
